

POSTER PRESENTATIONS
6th German-Japanese HIV-Symposium

No	POSTER-TITEL	POSTER-PRESENTER
P 1	Sharing an International AIDS Conference	Christin Seifert German Foundation Sexuality and Health (GSSG) Cologne
P 2	Drug-resistance profiles of HIV-2 CRF01_AB-infected case during acavir+lamivudine+lopinavir/r therapy	Dr. Shiro Ibe Center of AIDS Research, Education and Support, Nagoya Medical Center
P 3	Evaluation of integrase-mediated stimulatory effect on HIV-1 reverse transcription using nucleocapsid-coated RNA template	Dr. Yoko Sato Tokyo Medical and Dental University, Medical Research Division
P 4	Identification of SCYL2 as an interferon-inducible antagonist of HIV-1 Vpu	Dr. Kei Miyakawa Yokohama City University
P 5	An in vitro cleavage assay system for retrovirus protease by wheat germ cell-free protein production	Satoko Matsunaga Yokohama City University
P 6	AIDS-related lymphoma	Akihiro Matsunaga Research Institute National Center for Global Health and Medicine, Tokyo
P 7	"Real life" use of Atazanavir/r in women in Germany: baseline data of the ATASAFE study	Klaus Jansen for the German Competence Network for HIV/AIDS, Bochum
P 8	Biochemical and structural characterization of Nef-ligand interactions: Interference with pathogenic functions of HIV-1 Nef	Sebastian Lülff Max-Planck-Institut, Dortmund
P 9	Phosphorylation imprint of RNA polymerase II CTD by P-TEFb	Christian Böskén Max-Planck-Institut, Dortmund
P10	Involvement of the N-terminal Region of Human Cyclin T1 for the Transactivation of Human Immunodeficiency Virus-1 Transcription by Tat	Dr. Kaori Asamitsu and Prof. Dr. Takashi Okamoto, Department of Molecular and Cellular Biology, Nagoya City University
P11	Gender issues in the spread of HIV/AIDS in the Ukraine and German-Ukrainian Research Collaboration	Dr. Larissa Burruano for the German Competence Network for HIV/AIDS, Bochum
P12	Characteristics and treatment outcomes of chronic Hepatitis C under "real-life"-conditions in Germany: a comparison between HCV-mono-infected and HCV-HIV-coinfected patients	Klaus Jansen for the German Competence Network for HIV/AIDS, Bochum
P13	Impact of IL28B Polymorphisms on Sustained Virological Response of HCV/HIV-Coinfected Patients	Dr. Hagen Bachmann Institute of Pharmacogenetics, University of Duisburg-Essen
P14	Impact of timing HAART-initiation on immune status and clinical course in the cohort of the German Competence Network for HIV/AIDS	Prof. Andreas Plettenberg Ifi-Institut, Hamburg and Klaus Jansen for the German Competence Network for HIV/AIDS, Bochum

Dear colleagues and friends,
We would like to invite and welcome you to our two HIV-Symposia in Bochum:

Sun., 20.11.2011
10 years KompNet HIV/AIDS: Future Symposium

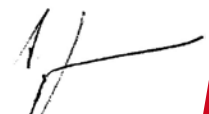

Mon., 21.11.2011
6th German-Japanese HIV-Symposium

Tues., 22.11.2011
6th German-Japanese HIV-Symposium + Workshop

This year we are celebrating the 10th year of the Competence Network for HIV/AIDS. We are looking back to numerous excellent scientific projects and publications which will be presented by the members of the network at our **Future Symposium** on the 20th of November.

At the same time we are looking forward to the future of our network: The KompNet HIV/AIDS will be existing as long as there are new projects coming up, using our patientcohort data and biomaterial bank. 2011 is not only the date of our **6th German-Japanese HIV-Symposium**, but also the 150th year of German-Japanese friendship. Therefore we are proud to welcome 14 Japanese scientists at our university and hope to start new collaborations in the field of HIV/AIDS research.

N.H. Brockmeyer

A. Skaletz-Rorowski

Your Way to Our Venues

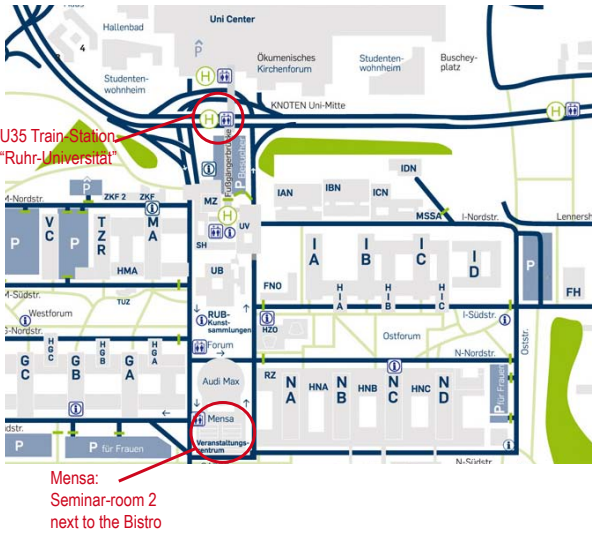

by public transport to the Auditorium „Hörsaalzentrum“ at the St. Josef-Hospital:
Tram 308 from Bochum Main station (HBF) to „rewirpower Stadion“ (Direction: „Schürbankstr.“)

by public transport to the University Campus:
U35 from Bochum Main station (HBF) to „Ruhr-Universität“ (Direction: „Hustadt“)

Venues

KompNet HIV/AIDS Future-Symposium
Date: Sun., 20.11.2011
Auditorium "Hörsaalzentrum"
St. Josef-Hospital
Gudrunstrasse 56 ; 44791 Bochum

6. German-Japanese HIV-Symposium
Date: Mon., 21.11.2011
Campus of the Ruhr-Universität Bochum
Mensa-Building, "Seminarraum 2",
(next to the Bistro, room with glass-front)
Universitätsstraße 150 ; 44801 Bochum

6. German-Japanese HIV-Symposium
Date: Tues., 22.11.2011
Vincenz-room, House "A", 1st floor
St. Josef-Hospital
Gudrunstrasse 56 ; 44791 Bochum

Scientific Committee
Prof. Dr. Takashi Okamoto
Prof. Dr. Mitsuhiro Kamakura
Prof. Dr. Norbert H. Brockmeyer

ST. JOSEF- UND
ST. ELISABETH-HOSPITAL

UKRUB UNIVERSITÄTSKLINIKUM DER
RUHR-UNIVERSITÄT BOCHUM

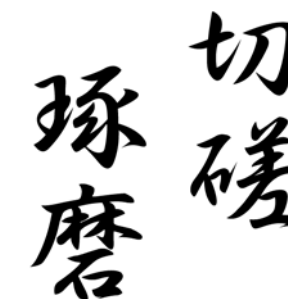

St. Josef-Hospital, Clinic for Dermatology, Venerology and Allergology of the Ruhr-Universität Bochum

15.00-15.15	Eröffnung / Registrierung Begrüßung <i>Prof. K. Überla, Dekan der Medizinischen Fakultät, RUB Prof. N.H. Brockmeyer, Sprecher des KompNet HIV/AIDS</i>
15.30-16.30	KompNet HIV/AIDS-Kohorte: Aktuelle Aspekte Kurze Einführung Daten, Biobanken, Patienten <i>C. Michalik, Bochum</i> Daten/Biobanken: CD40L-vermittelter Defekt des Interferonsystems in der HIV-1 Infektion <i>PD Dr. B. Schmidt, Erlangen</i>
15.45	Biobanken: Pharmacogenetics and Pharmacokinetics <i>Dr. H. Hendra, Köln</i>
16.00	Patienten: Sexuelles Risikoverhalten und Suchtmittelkonsum bei HIV-infizierten Patienten in spezialisierter ambulanter Behandlung <i>Prof. Dr. N. Scherbaum, Essen</i>
16.30-16.45	PAUSE
16.45-17.45	KompNet HIV/AIDS und seine Partner Kurze Einführung Kooperationen: National, international, öffentl. Förderer, Industrie <i>PD Dr. A. Skaletz-Rorowski, Bochum</i>
17.00	KompNet goes east - das Ukraine-Projekt <i>(unterstützt durch IB-BMBF) Dr. L. Burruano, Bochum</i>
17.15	Prospektive, nicht-interventionelle Langzeit Kohortenstudie zur Wirksamkeit und Sicherheit von Atazanavir/Ritonavir Regimen bei HIV infizierten therapieerfahrenen Frauen (unterstützt durch BMS) <i>Dr. A. Haberl, Frankfurt</i>
17.30	Kinderkohorte - erste Daten und Chancen <i>(unterstützt durch Abbott) Dr. C. Königs, Frankfurt</i>
17.45-18.00	PAUSE
18.00-18.50	Ko-Infektionen und Ko-Erkrankungen im KompNet HIV/AIDS Herpes-Zoster-Koinfektion <i>(unterstützt durch GSK Biologicals) K. Jansen, Berlin</i>
18.00	Aging und HIV <i>Dr. H. Jäger, München</i>
18.15	HPV-Koinfektion <i>Dr. A. Potthoff, Bochum</i>
18.30	HIV-HEART <i>Dr. S. Esser, Essen</i>
18.45-19.00	KompNet HIV/AIDS-Ausblick <i>Prof. Dr. N. H. Brockmeyer, Bochum</i>
ab 19.30	KompNet HIV/AIDS-Celebration: 10 Years Competence Network for HIV/AIDS with live-music

8.45	REGISTRATION
9.00-9.20	OPENING REMARKS M. Munsel Ministry of Innovation, Science, and Research (MIVWF) of the State of North Rhine-Westphalia Prof. Dr. T. Okamoto / Prof. Dr. N. H. Brockmeyer
9.20-11.00	SESSION 1: BASIC SCIENCES Epigenetic Control of the HIV Latent Infection <i>Prof. Dr. T. Okamoto, Nagoya</i>
9.20	Impact of selective infection and expansion of CCR5-utilizing HIV-1 in CD4+CXCR4highCCR5+ memory T cells in humanized mouse model <i>Dr. Y. Tsunetsugu-Yokota, Tokyo</i>
9.40	CTL recognition of autologous HIV-1 <i>Prof. Dr. T. Harrer, Erlangen</i>
10.00	Are we looking at eradication? <i>Dr. H. Jäger, Munich</i>
10.20	HIV-1 Vpr causes premature sister chromatid separation <i>Dr. M. Shimura, Tokyo</i>
10.40	COFFEE-BREAK
11.00-11.20	SESSION 2: CLINICAL SCIENCES & PHARMACOLOGY Structural insight for non-enzymatic roles of retroviral integrase: the next target for novel anti-HIV drug development <i>Dr. T. Masuda, Tokyo</i>
11.20	The impact of HIV-1 Tat on transcriptional regulation <i>PD Dr. M. Geyer, Dortmund</i>
11.40	Correlation of vaccine-induced cellular immune response with susceptibility to acquisition of simian immunodeficiency virus infection <i>Prof. Dr. K. Überla, Bochum</i>
12.00	Festinavir (4'-ethynyl-d4T) as the last NRTI under clinical trials <i>Prof. Dr. M. Baba, Kagoshima</i>
12.20	From precise diagnostic to therapeutic intervention: Upgrade for T-cells <i>Prof. Dr. H. Wolf, Regensburg</i>
12.40	Impact of recent antiretroviral treatments in controlling treatment-naïve and drug-resistant HIV cases in Japan <i>Dr. W. Sugiura, Nagoya</i>
13.00	LUNCH-BREAK
13.20-14.00	SESSION 3: NEUROLOGY Retrospective Analysis of the HAART CNS Penetration Effectiveness (CPE) Index on Neuropsychological Performance of a German Neuro-AIDS cohort <i>Prof. Dr. G. Arendt, Düsseldorf</i>
14.00-14.40	HIV-associated neurocognitive disorder by retrotransposition by Vpr <i>Dr. Y. Ishizaka, Tokyo</i>
14.40-15.20	SESSION 4: SOCIAL SCIENCES Building social network and resilience among people living with HIV through workplace-based HIV programs <i>Y. Oshima, Geneva</i>
14.00	Substance use and sexual risk behaviour among HIV-positive MSM in specialized outpatient clinics <i>H. Dirks, Essen</i>
14.40	POSTER SESSION AND BREAK
15.00	SESSION 5: SOCIAL SCIENCES, EPIDEMIOLOGY & METHODOLOGY An analysis of the status and trends of the HIV/AIDS epidemics in developed countries <i>Prof. Dr. M. Kamakura, Tokyo</i>
15.20-16.20	Medical practices specialized in HIV in Germany <i>Dr. A. Ulmer, Stuttgart</i>
16.20	Results of the HIV-1 Seroconverter Study <i>K. Jansen, Berlin</i>
16.40	Target Group Clients: Time Patterns in the Use of Internet Forums of Sex Workers' Clients in Germany <i>H. Langanke, Cologne</i>
17.00	The European MSM Internet Survey (EMIS) 2010 <i>Dr. A.-J. Schmidt, Berlin</i>
17.20	BREAK General Assembly I+II of the German Competence Network for HIV/AIDS
17.40	Get together and Posterprize award

9.00-10.00	PROJECT WORKSHOP: COLLABORATIONS IN RESEARCH & SCIENCES HPV and HIV <i>Dr. A. Potthoff, Bochum</i>
9.20	Data of the Competence Network for HIV/AIDS – Possibilities for collaborations <i>C. Michalik, Bochum</i>
9.40	The Ukrainian collaboration – An example for successful cooperation in HIV-research <i>Dr. L. Burruano, Bochum</i>
10:00-10.15	BREAK (finger food buffet)
10:15-11.30	Discussion - Future steps of collaboration and work on joint projects
15.00-19.00	Official opening of the Japanese-week at the Ruhr-Universität
